Marjorie Mason Hogue

The Advantage of Annuals in the Landscape

Marjorie Mason Hogue brings a wealth of information to the gardening public. Following a gardening career as a young woman on her parent’s market garden, Marjorie’s background includes 19 years of nurseries experience and 30 years of gardening, especially in the area of scripture. Her garden is now a two acre English style mail order/nursery and display garden called Jardin Marjorie Mason Hogue Gardens. Marjorie lectures across Canada on a wide variety of horticulture topics and has written articles for Canadian Living, House & Home, and Canadian Garden Landscapes Ontario. Awarded Marjorie with the Garden Communicator of the Year Award in 1990. Her book, Amazing Annuals, is perfect for her talk, “The Advantage of Annuals in the Landscape.”

In Search of Good Plants: Hunting, Collecting, Evaluation

Dan Hinkley, as avid plant person since his youth, is well known for his knowledge of woody and herbaceous plants. Following horticulture degrees from Michigan State University and University of Washington, Dan taught horticulture at Edmonds Community College, Edmonds, Washington. Dan’s nursery, Hinkleywood, a retail nursery, was recently purchased by W. Atlee Burpee. He presently grows 1000 acres of plants on his North Kitsap Peninsula. Dan’s vast knowledge of plants is reflected in the year 2000 edition of the Hinkley catalog which lists over 2700 plants. Many raised from seeds collected by Dan on trips to Japan, Korea, Nepal, China, Chile and Mexico.

Dan writes frequently for Pacific Horticulture, The American Gardener, Horticulture, and is a contributing editor for Martha Stewart Living Magazine. He is also the author of two highly acclaimed books: Wildlife Ornaments and The Explorer’s Garden. Rare and Unusual Perennials.

Pam Dutchie

Designing for Continuous Bloom

Pam Dutchie is the owner of The Gifted Gardener, a landscape design and consulting firm specializing in perennial gardens. In addition to her design expertise, Pam is a lecturer at the Chicago Botanic Garden. Pam has traveled and photographed gardens in China, Japan, Austria, France, and Italy. Pam is the author of Designing for Continuous Bloom: A Month-by-Month Guide to Newtop Color in the Perennial Garden. Pam uses her own gardening experiences to highlight her lectures and serves others to learn from what they have seen so they can adapt it to their own gardens.

Tremble, Bloom, and a Slow Field to Brown

Bill Callina holds degrees in plant science and horticulture and has been working in plant propagation and nursery production for 15 years. In 1993 he was made nursery manager and propagator at the New England Wild Flower Society. He is responsible for native plants and propagation of plants for the nursery and wildflower projects. In 1998 he moved to the Society’s native plant nursery which is located near Harvard in Edgartown, Massachusetts. Bill supervises the Society’s native plant nursery which is located in New England. He has several years experience with native plants and propagation to garden and professional groups and writes for popular and technical journals. He recently published his first book, The New England Wild Flower Society Guide to Growing and Propagating Wildflowers of the United States and Canada.

Scott Kunst

Heirloom Bulbs Four Seasons, Forty Centuries

Scott Kunst is the owner of Old House Gardens, the country’s only mail-order source devoted to heirloom flower bulbs. Since coming on board in 1993 sales have blossomed, as rare, tough, subtle, fragrant and distinctive bulbs have been featured in Garden Design, Country Living, Victoria and The New York Times. A landscape historian and preservationist, Scott has taught landscape history at the University of Michigan and has lectured for numerous groups from Nantucket to San Antonio. His alma mater, St. Mary’s University, in San Antonio, is rich in historic plants, including antique iris, peonies, pinks, mums and of course, spring and summer bulbs.

Natural Designs with Perennials

Mark Viette is a third generation member of the Andra Viette Farms and Nursery located in Fishersville, Virginia. Mark received a Bachelor of Science from Virginia Tech. He then completed an in-depth course in tissue culture at the University of California, Riverside. In 1981 he joined his father in the Viette family perennial nursery which grew over 300 varieties of perennials, with special emphasis on daylily and irises. In addition to his nursery responsibilities, Mark manages the regional radio program which provides a quarterly and annual gardening talk show featuring Andra and Mark Viette. Mark also is a horticulture instructor for many courses at the local community college. He will use this extensive background to discuss designing with native plant material.
